---	---

FACTORY RESET

Open battery cover and insert pin into reset button next to type C port. Press and HOLD 5 seconds on reset button.

IMPORTANT NOTES

Security Notice: In the initial state of the door lock, any fingerprint password can be unlocked. To prevent others from setting the unlocking information by mistake, please add the administrator password and fingerprint in time.

G11 vs G10 Difference: G11 fingerprint registration requires 4 scans (vs 6 for G10 master). G11 also supports WiFi connectivity via Smartlife App.
