## AUTHENTICATION METHODS

| Method      | Details                                        |
|-------------|------------------------------------------------|
| Face        | Enroll via Local Setting > Add User > Face     |
| Fingerprint | Enroll via Local Setting > Add User > Finger   |
| Password    | Enroll via Local Setting > Add User > Password |
| Card (IC)   | Enroll via Local Setting > Add User > Card     |

## NOTES & TIPS

**WiFi Connectivity:** P30 supports smart app integration via WiFi module.  
**EZ Mode:** Use App Setting > Add Module > Network Config to pair with app.  
**Factory Reset:** Navigate Local Setting > Option > More Setting > Init System.  
**Delete WiFi:** Use the app to select lock icon, click Edit, and remove the device.
